## Authentication Service Menu

JSA Programs for All of Your Authentication Needs...

### The JSA Standard Certification Process

*Each item is methodically examined and reviewed by each of our authenticators individually to ensure their expert impressions are in agreement.*

*The authenticators then collaborate and employ a scoring system for the final determination of an item's authenticity. Certified items are then given a registration number and the tamper-evident label is applied to either the item itself or the Letter of Authenticity (customer preference).*

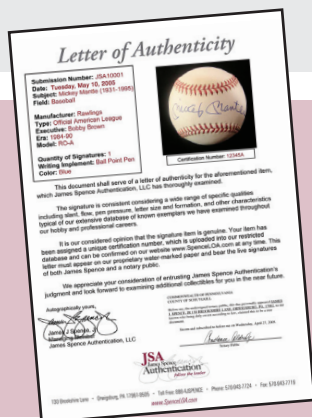

*Items that fail our strict examination standards for certification are returned with a failure letter detailing the inconsistencies.*

### Benefits included with a James Spence Authenticated Item:

- Fast and easy online confirmation of certification number.
- Increased value for quicker sale of memorabilia.
- Secure, virtually impossible to replicate proprietary watermark James Spence Authentication Letter of Authenticity with corresponding high-resolution image and a unique numbered label.
- Guaranteed acceptance of Letter of Authenticity by collectors, dealers, and ALL auction houses worldwide or your submission fee will be reimbursed.
- Peace of mind that your memorabilia is deemed authentic and ready to be sold, passed along to a family member, or cherished forever.
- All numbered Letters of Authenticity are fully transferable without resubmission.

### JSA Stamp of Approval

For low-end autographs, you can't beat the James Spence Authentication *Stamp of Approval*. An unnumbered logo-trademarked sticker is adhered to your flat signed collectible after examination. This service is guaranteed for life.

### The JSA Basic Cert Program

Popular among dealers and collectors alike, the *Basic Cert* employs the same valued authentication process to verify lesser valued autographed items. Included with the *Basic Cert* program is a 3" x 5" James Spence Authentication registration card printed with a unique certification number corresponding to the alpha-numeric tamper evident label.

### JSA Full Letter of Authenticity (LOA)

Highly sought after by collectors, dealers and hobbyists alike, our Full LOA contains a digital color image of the item and live signature of autograph expert James Spence, which is witnessed by a licensed notary public. It accompanies any item that passes our authentication process and qualifies for the standard letter. It is accepted by any major auction house in the country and is viewed as THE letter to have when either displaying your prized possession or offering it online.

## House Call Program

Up to a full eight-hour day of autograph authentication at your home, office, warehouse, memorabilia shop, or at our New Jersey facility. Items and their certification numbers are registered on the James Spence Authentication website for public verification. James Spence Authentication Letters of Authenticity are guaranteed to be accepted by all major auction houses.
